*Our visit to India in November 2009 was incredible! Our guide, Pramod Kumar was honest, hardworking and knowledgeable. The tour to India covered visit to cities, agricultural universities, farms, trade shows, market and processing facilities. Pramod is well connected to Indian agriculture, he makes things happen, and is very professional. He was able to solve problems, and was very accommodating, and concerned about our welfare. We had a wonderful experience and would like to visit India again soon!*
